Product Features:

AirLaid Mat Pads conform to your application for unlimited flexibility in tight spaces or when wiping.

Crumples, Fits or Wraps to Any Job

Resilient, bounce-back polypropylene fibers are "AirLaid" between two layers of tough SpunBond; ideal for tight spots and wrapping pipes or other equipment.

High Sorbency Stays on the Job Longer

Inner layer of high-loft, air-filled polypropylene fibers creates uniform pockets of air that attract and hold liquids. Absorbs high volumes of liquid fast.

Durable for Everyday Use

Ultrasonic bonding of two abrasion-resistant SpunBond layers around loose fibers gives the Mat added strength.

Color-Coded

Color-coding helps you visually identify the right sorbent for your needs. Bright white designates Oil-Only sorbency for oil and other petroleum-based fluids — but not water; makes it easy to identify when saturated.

Composition:

- Polypropylene
